

EcoSchools

WHAT?

Is your goal:
'Gold Level' Status?

Here's one way to get the
whole school involved
that's easy and fun:

Who Is GREEN?

HOW?

The 5 inspiring *Who Is GREEN?* Steps support students in discovering their strengths and using them to help the environment, supporting schools in:

- Achieving 'Gold Level' Status for EcoSchools
- Exercising all the Character Attributes
- Being GREEN in a personally meaningful way for a lasting experience

For example:

- If you love hockey & other sports:
Collect & recycle equipment as a school-wide 'act of green'
- If you love painting:
Create a persuasive awareness poster to help the whole school in reducing single-use water bottles

WHY?

The *Who Is GREEN?* Kit comes with comprehensive and inspiring support materials to guide student choices and includes a Scrapbook & ANYBODY (who becomes SOMEBODY who is green) to document, share and celebrate your amazing projects so that you have a clear record of the points you've collected for all the EcoSchools focus areas,

including:

- Teamwork and Leadership
- Energy Conservation
- Waste Minimization
- School Ground Greening
- Environmental Stewardship
- Curriculum

Who Is GREEN? can be implemented class-wide to support every student in doing a personal project that helps the environment or it can be done school-wide with the focus of gaining EcoSchools 'Gold Level' Status
